Work Experience

Work Related Learning is a valuable part of Colton Hills School curriculum. Work Experience and work shadowing are two of the most effective ways we have of introducing students to the opportunities that await in the workplace. Both, enable students to enhance and focus their learning as they move through Key Stages 4 and 5 towards adulthood. They allow students to explore potential career choices in a structured way and develop essential skills such as communicating with people who are not their peers outside of the school environment, writing letters of application, creating an up-to-date CV, attending interviews, planning transport and meal arrangements. All of which are essential skills in the fast-moving world of work.

Work experience is offered to students from Year 10 to Year 13.

Year 10 Students

All Year 10 students will undertake 1 -5 day's face-to-face work experience placement (Spring Term) and/or partake in a virtual experience for a career they would like to find out more about.

Year 11 Students

Students in year 11 are provided with support to access a variety of work-related opportunities virtual and face-to-face throughout the academic year. Students in year 11 usually start placement within the Summer term after completing their exams.

6th Form Students

All year 12 students will participate in a face-to-face work experience placement during the first week in July. We also encourage all students to take part in virtual work experiences, that will usually occur during their own time in the school holidays.

Throughout the Work Experience process students can contact Miss Lopez (CEIAG Aspirations Leader) for support, such as help finding a placement, and to prepare for their time on the virtual placement/week in the workplace.

Please contact Miss Lopez (CEIAG Aspirations Leader) for further help, advice, or support.

- Year 11 Work Experience Student Info Booklet (available from January 2023)

Virtual Work Experience

In today's strange times we realise real-life work experience is much more difficult to find however, lots of companies are finding innovative ways of delivering work experience which pupils can take advantage of. Some of these courses have charges but a lot of them are free.

Some of the leading suppliers are:

- Springpod
- Speakers for Schools
- InvestIN (£)
- Premed (£)
- Skills Gap (£)
- Forage (don't be put off that this looks like it's only for undergraduates, there are options for school pupils as well)
- My Pocket Skill Click on the link below for the latest paid work opportunities via the MyPocketSkill portal.
