**Improvement
Action 2 -
progress**

Continue to develop the department curriculum for all three disciplines, particularly music to aid in greater rigour in assessments and the implementation of HPL in line with the department 5.

Department 5 has been a focus of department meetings, especially analysis after David's visit. We maintain our top 5 are still the same, although recognise we are still learning the use of the language and at times have adjusted the HPL in the curriculum sequence as we evolve with the use.

Further SOW has now been write for dance, drama and music and all include HPL. At the end of each topic in the KAO's student reflect on their use of HPL in the topic

Evidence base:

Success Criteria and Evidence to support progress

Planning documents to be detailed and presented for department scrutiny at department meetings.

The presence of active HPL language and skills in lesson, particularly the department 5.

Pupil Voice- through conversations with students they can express where they are using HPL in their lessons.
