19<sup>th</sup> December 2025

Dear parent/carers

**“Every great journey starts with a single step—and your support can make all the difference.”**

Helping your teenager prepare for the world of work is one of the most powerful ways you can shape their future.

Earlier this month, I launched the school's first Careers Newsletter to give you the latest opportunities, practical advice, and guidance so your child feels confident and ready to take the next step.

Inside, you'll find simple tips for starting career conversations at home, updates on local and national initiatives, and insights into exciting new industries and pathways. Whether your child is thinking about university, apprenticeships, or going straight into work, I'll provide the tools and knowledge to help you guide them towards success—every step of the way.

Future newsletters will be timed to coincide with the remaining careers focus weeks we have in school: weeks commencing: 05/01/2026, 02/03/2026, 20/04/2026, 29/06/2026.

Together, we can help your child to build the skills and confidence they need to thrive in an ever-changing job market. If you have any comments about the newsletter, please contact me as I would welcome all feedback which helps me to further improve its quality and usefulness.
