

Dear parent/carer

I am delighted to tell you about an exciting opportunity for your child. The National Saturday Club has organised a free opportunity in Wolverhampton at the university for children aged from 14 to 16.

Details:

Focus: A youth-led, hyper-local project exploring how Wolverhampton can become greener — inspired by the corridor’s mission to improve infrastructure, reduce carbon, and support sustainable growth. Young people investigate issues in their own neighbourhood and create projects that make a real difference. Aims Build environmental awareness in relatable, local ways. Give young people ownership over improving their community. Develop skills in research, teamwork, campaigning, and practical action. Connect young people with local partners (council, university, green groups).

Provisional Schedule:

- Week 1: Exploring “What makes a city green?” interactive mapping.
- Week 2: Local audit — green spaces, waste hotspots, safe cycling routes, air quality.
- Week 3: Guest speaker (local sustainability lead / youth worker).
- Week 4: Investigate themes: waste, transport, biodiversity, energy.
- Week 5–6: Youth choose a local challenge to solve.
- Week 7–9: Project development.
- Week 10: Working with partners — how to influence change.
- Week 11–13: Implement the project (or create a detailed proposal if infrastructure-based).
- Week 14–15: Community exhibition / youth manifesto for a Greener Wolverhampton

Date and Times: Each Saturday from 4th April to 11th June 2026 between 14:00 to 16:00.

Location: The Way Youth Zone, with University of Wolverhampton

How to apply: Please use this link - <https://saturday-club.org/club/the-way-youth-zone-and-university-of-wolverhampton>

This is a fabulous opportunity and will further support your child in making informed choices in progressing onto a positive destination at the age of 16 or 18.

Yours sincerely

Mr. H.S. Tamber
